

PUNCH OUT POCKET

Strengthen a pitcher's game time performance with the Punch Out Pocket. Constructed of industrial grade netting, the 9 individual pockets help improve the accuracy of both baseball and softball pitchers with immediate feedback. The real time pitch location allows for players to work on hitting their spots, without needing a live batter or catcher, and the pockets help coaches visualize each pitch to improve a pitcher's performance. The On Deck Sports Punch Out Pocket is available in black, red, and royal blue.
